*findings, these reviews shall include typical information considered in routine program reviews to the extent available. This motion is effective September 12, 2019.*

Although not a direct part of this charge, **I am asking you to chair a committee in the area of Student Affairs.** We will conduct a review at a statewide level by an inter-university team comprised of faculty, administrators, staff, students, and community representatives. The committee will include the Vice Chancellors and other administrative representatives appointed by the Chancellors. **Each review team will be convened by its chair, meet as needed, and provide a report to the President by 10/10/2019.** The reports will be posted for governance and public input. The President and Chancellors will review the reports, along with the governance and public input, and prepare options for consideration by the Board of Regents at its November 7 meeting.

The report should look at both “back office” functions as well as more student-facing ones and look to address the following questions:

1. What services and/or operations would a single office serving the state include?
2. Compared to our current structure of offices, what would be the administrative savings of moving from several offices to one?
3. What issues need to be resolved if the office or process is assigned to one of our three separately accredited universities as the statewide “lead”, providing service to the entire system?
4. What issues need to be resolved if the office or process is part of a single accredited statewide university?

In particular, I would like your committee to address the list of hypothetical integrated functions that were shared with the Board on September 12 (slide 33) and provide recommendations as to what can be better integrated or consolidated and what would have regional or local functions in the various accreditation structures. Finally, the report should address the integration of “common student experiences” that we presented to the Board at the June meeting.

For input to the process, your committee should consider previous academic program reviews or recommendations where appropriate. University Institutional Research offices and the UA Office of Data Strategy and Institutional Research will provide additional data as needed and post it to a Google Drive. Gwen Gruenig will provide more information on the location of the data and work with you to assign a member of our system-wide IR team to assist you on getting the data you need.

To facilitate this process, you are responsible for administrative support. You will need to record all meetings using Zoom and provide links to us. Please contact Kelly James (kajames6@alaska.edu) for information on recording meetings and budget for travel and related expenses associated with your meeting(s). We are getting the final membership names from

let me know. **Please contact your committee regarding their membership, setting up**

9:30-10:30 AM	Virtual Town Hall #6
11:00 AM-12:00 Noon	Virtual Town Hall #7
